# Access to AI writing detection ending soon

Dear Customer,

We're getting in touch to inform you that your institution's access to Turnitin's AI writing detection capabilities will end on December 31, 2023.

Access to the preview of this feature was enabled for all of our customers as part of their existing licenses upon launch in April this year to help them understand how our detector works as well as comprehend if AI writing tools are being used at their institutions.

As the preview phase comes to an end, access to this capability will only be available to customers that license Turnitin Originality. Furthermore, at the end of the preview phase, AI writing detection scores and the AI writing report will no longer be visible for any submissions including those that were submitted prior to the end of this year.

If you have any questions, please speak to your Turnitin account manager.

We thank you for your continued support.

Warm regards,  
***The Turnitin Team***
